### Abstract

Education activities in schools, colleges and universities are closed in the country. The students are under house arrest. Some countries have started opening schools and colleges depending on the situation, it is very limited. The Ministry of Education has launched education activities in the field of secondary education through Sangsad TV. However, there are various discussions and criticisms within the country about the quality of the class and its effectiveness. This study based on secondary data but primary data also used for purposive objectives. The present study post corona world change in education system. Farther more, the paper showed some problems faced in e-education system and gives some suggestion and recommendation to overcome those problems.

**Keywords:** E-education, lockdown, Covid-19, E-learning, PowerPoint presentation, Google live class and digital classroom.
