ABSTRACT

This article examines the Arabic words in the sphere of education, which are actively used in the vocabulary of the Uzbek language. The terminology of the sphere of education is, first of all, terminological general literary vocabulary. The purpose of the article is to analyze the main structural and lexical-semantic characteristics in the field of education in the Uzbek language. The results obtained will allow a new approach to understanding and solving problems, like word formation in the Uzbek literary language.

KEYWORDS: Arabism, Borrowing, Education, Frequency, Semantics, Terminology, Analysis, Lexeme.
