**ABSTRACT**

*This is an analysis of the main trends in the study of linguistic personality in contemporary linguistics. There has long been a tendency in linguistics to study language personality in depth: its model, the projection of an interdisciplinary term into the field of linguistics, priorities reflected in vocabulary, behavioural reactions, vocabulary, ethno semantics and much more. One of the topical areas of research is the understanding of the human phenomenon through natural languages".*

**KEYWORDS:** *Linguistic Identity; Cognitive Linguistics; Linguistic Personality; Anthropocentrism; Glottosphere; Linguistic Complexity.*
