ABSTRACT

Agricultural markets are an economic tool that combines the factors necessary for agricultural production, the products produced, and the interests of producers. Ensuring economic stability is one of the most important tasks in the development of any independent country. In stabilizing the national economy, it is important to fill the consumer markets with quality agricultural products, strengthen food security, provide industry with raw materials, and increase the efficiency of the agricultural sector, which is a source of improving the welfare of the rural population. With this in mind, this article addresses the development of entrepreneurship in the agricultural sector.

KEYWORDS: *Agriculture, Consumer Markets, Economic Stability, Agrarian Policy, Development and Modernization, Diversification Of Production, Philosophy Of Poverty, Demonstrative Consumption.*
